4 Network rollout plan

## Foreword from Rajiv Datta, CEO

Welcome to nexfibre's first quarterly build report. Reflecting on our work and the contents of this document, I have been struck by how much the business has achieved in such a short space of time.

My thanks go to our fantastic people, and our investors InfraVia Capital Partners, Liberty Global and Telefónica, and our build partner Virgin Media O2, who make this possible.

We live our values of being **open, fast and simple**:

- Committed to creating an open network for all ISPs, and providing access to quality broadband for consumers and businesses across the UK.
- Operator of a hyper-fast, full fibre broadband network, and a company driven to achieve its mission, fast.
- Simple and straightforward to work with, with a clear focus on driving competition and innovation.

The future is exciting. We are well-capitalised through the investment of our mature and experienced partners, and we are building a high-quality network for the long-term, as part of our mission to become a national-scale, wholesale operator.

By boosting infrastructure-level competition, increasing choice for ISPs, and by playing our part in closing the digital divide, we are helping to build a better-connected nation and deliver lasting value to communities across the UK.

nexfibre is a next generation fibre network operator, formed in December 2022. We are on a mission to deliver our network to more than 5 million premises by 2026, using the latest XGS-PON architecture, capable of symmetrical speeds of up to 10 Gbps.

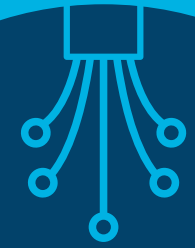

**505,303**

premises passed (RFS)  
as at 30 September 2023

TOTAL BUILD PLAN:

**5 million**  
by end of 2026

**100%**  
full fibre

**£4.5bn**  
investment

Up to **10gbps**  
symmetrical speed capable

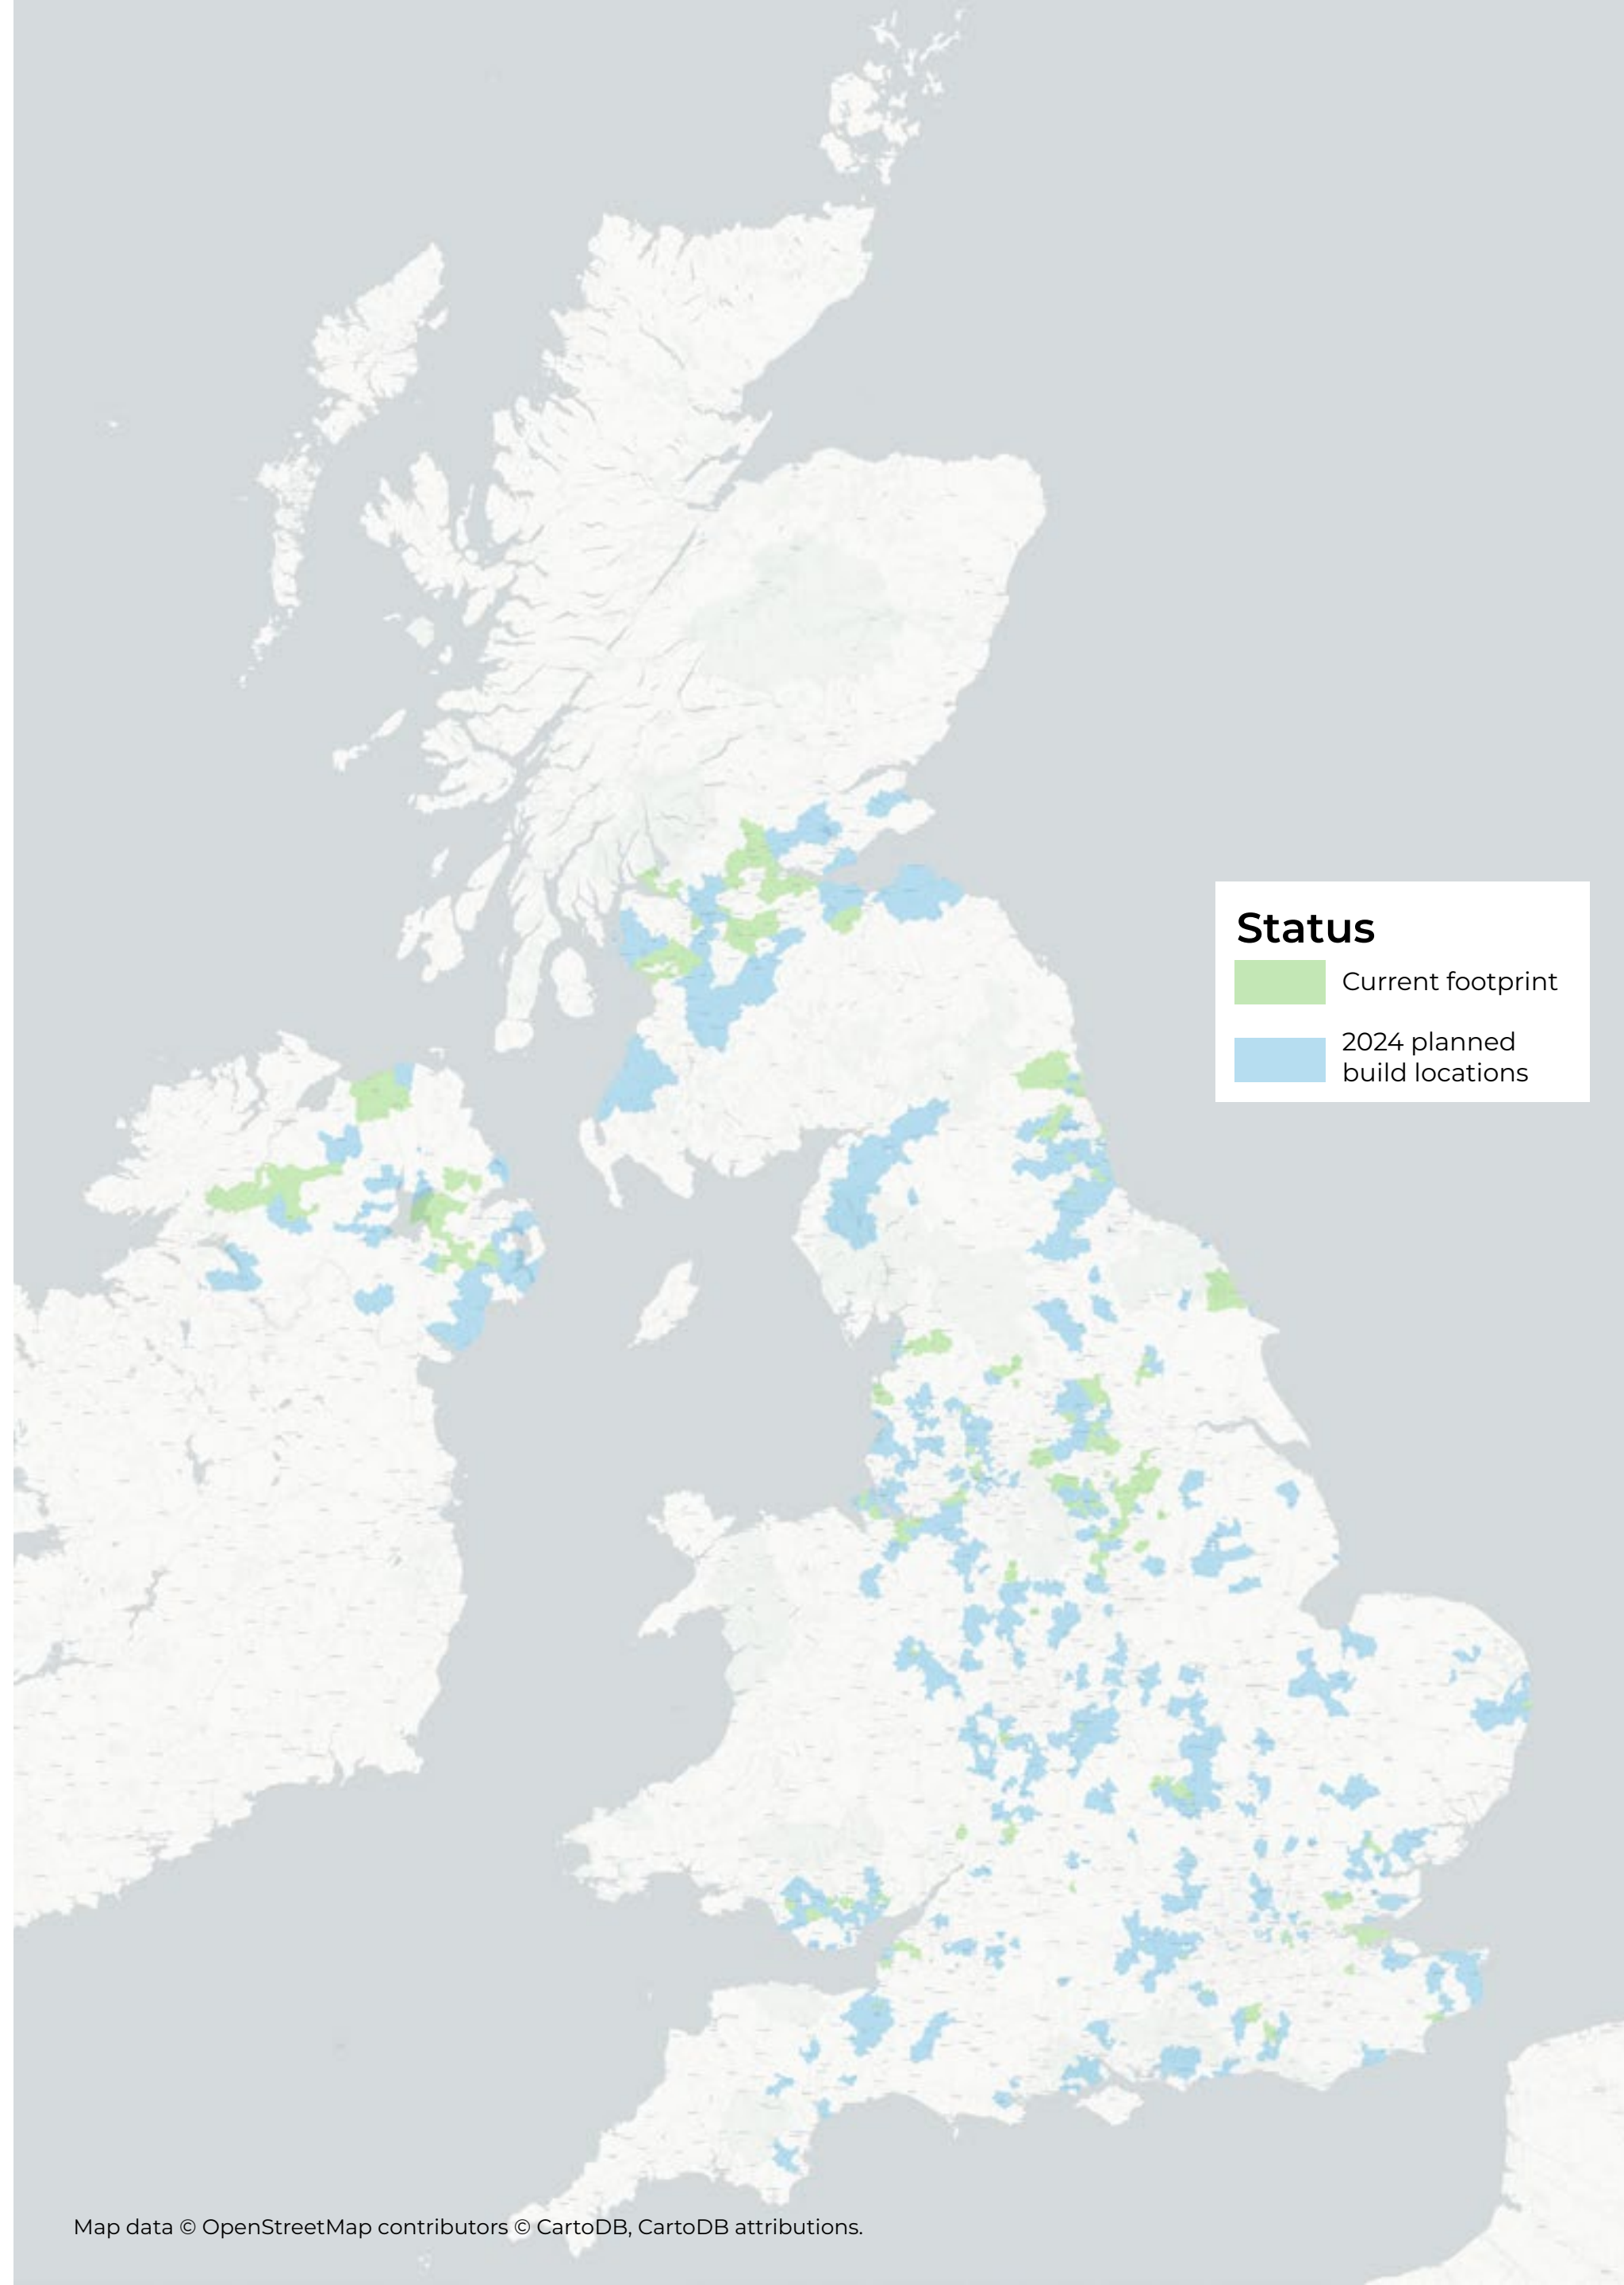

# Network rollout plan

nexfibre is bringing full fibre to more than 5 million premises across the UK by the end of 2026.

This map shows our current footprint, and locations where we are planning to build in 2024.

The following pages provide a breakdown, by build location, of existing footprint, current build activity and planned build for the next 12 month period.

As at 30 September 2023.
