

Network coverage update

As at 31 December 2025

Foreword

With our network now extending to c. 2.6 million premises, we're proud to be among the UK's leading alternative fibre providers.

As we look ahead, I'm delighted that our shareholders InfraVia, Liberty Global and Telefónica have announced an agreement to acquire Netomnia, with more than 3 million fibre premises and 460,000 customers.

The combination of nexfibre, Netomnia and more than 2 million Virgin Media O2 premises, which will be upgraded by nexfibre, will create a scaled, financially secure challenger to BT Openreach, with a full fibre footprint of around 8 million premises by the end of 2027.

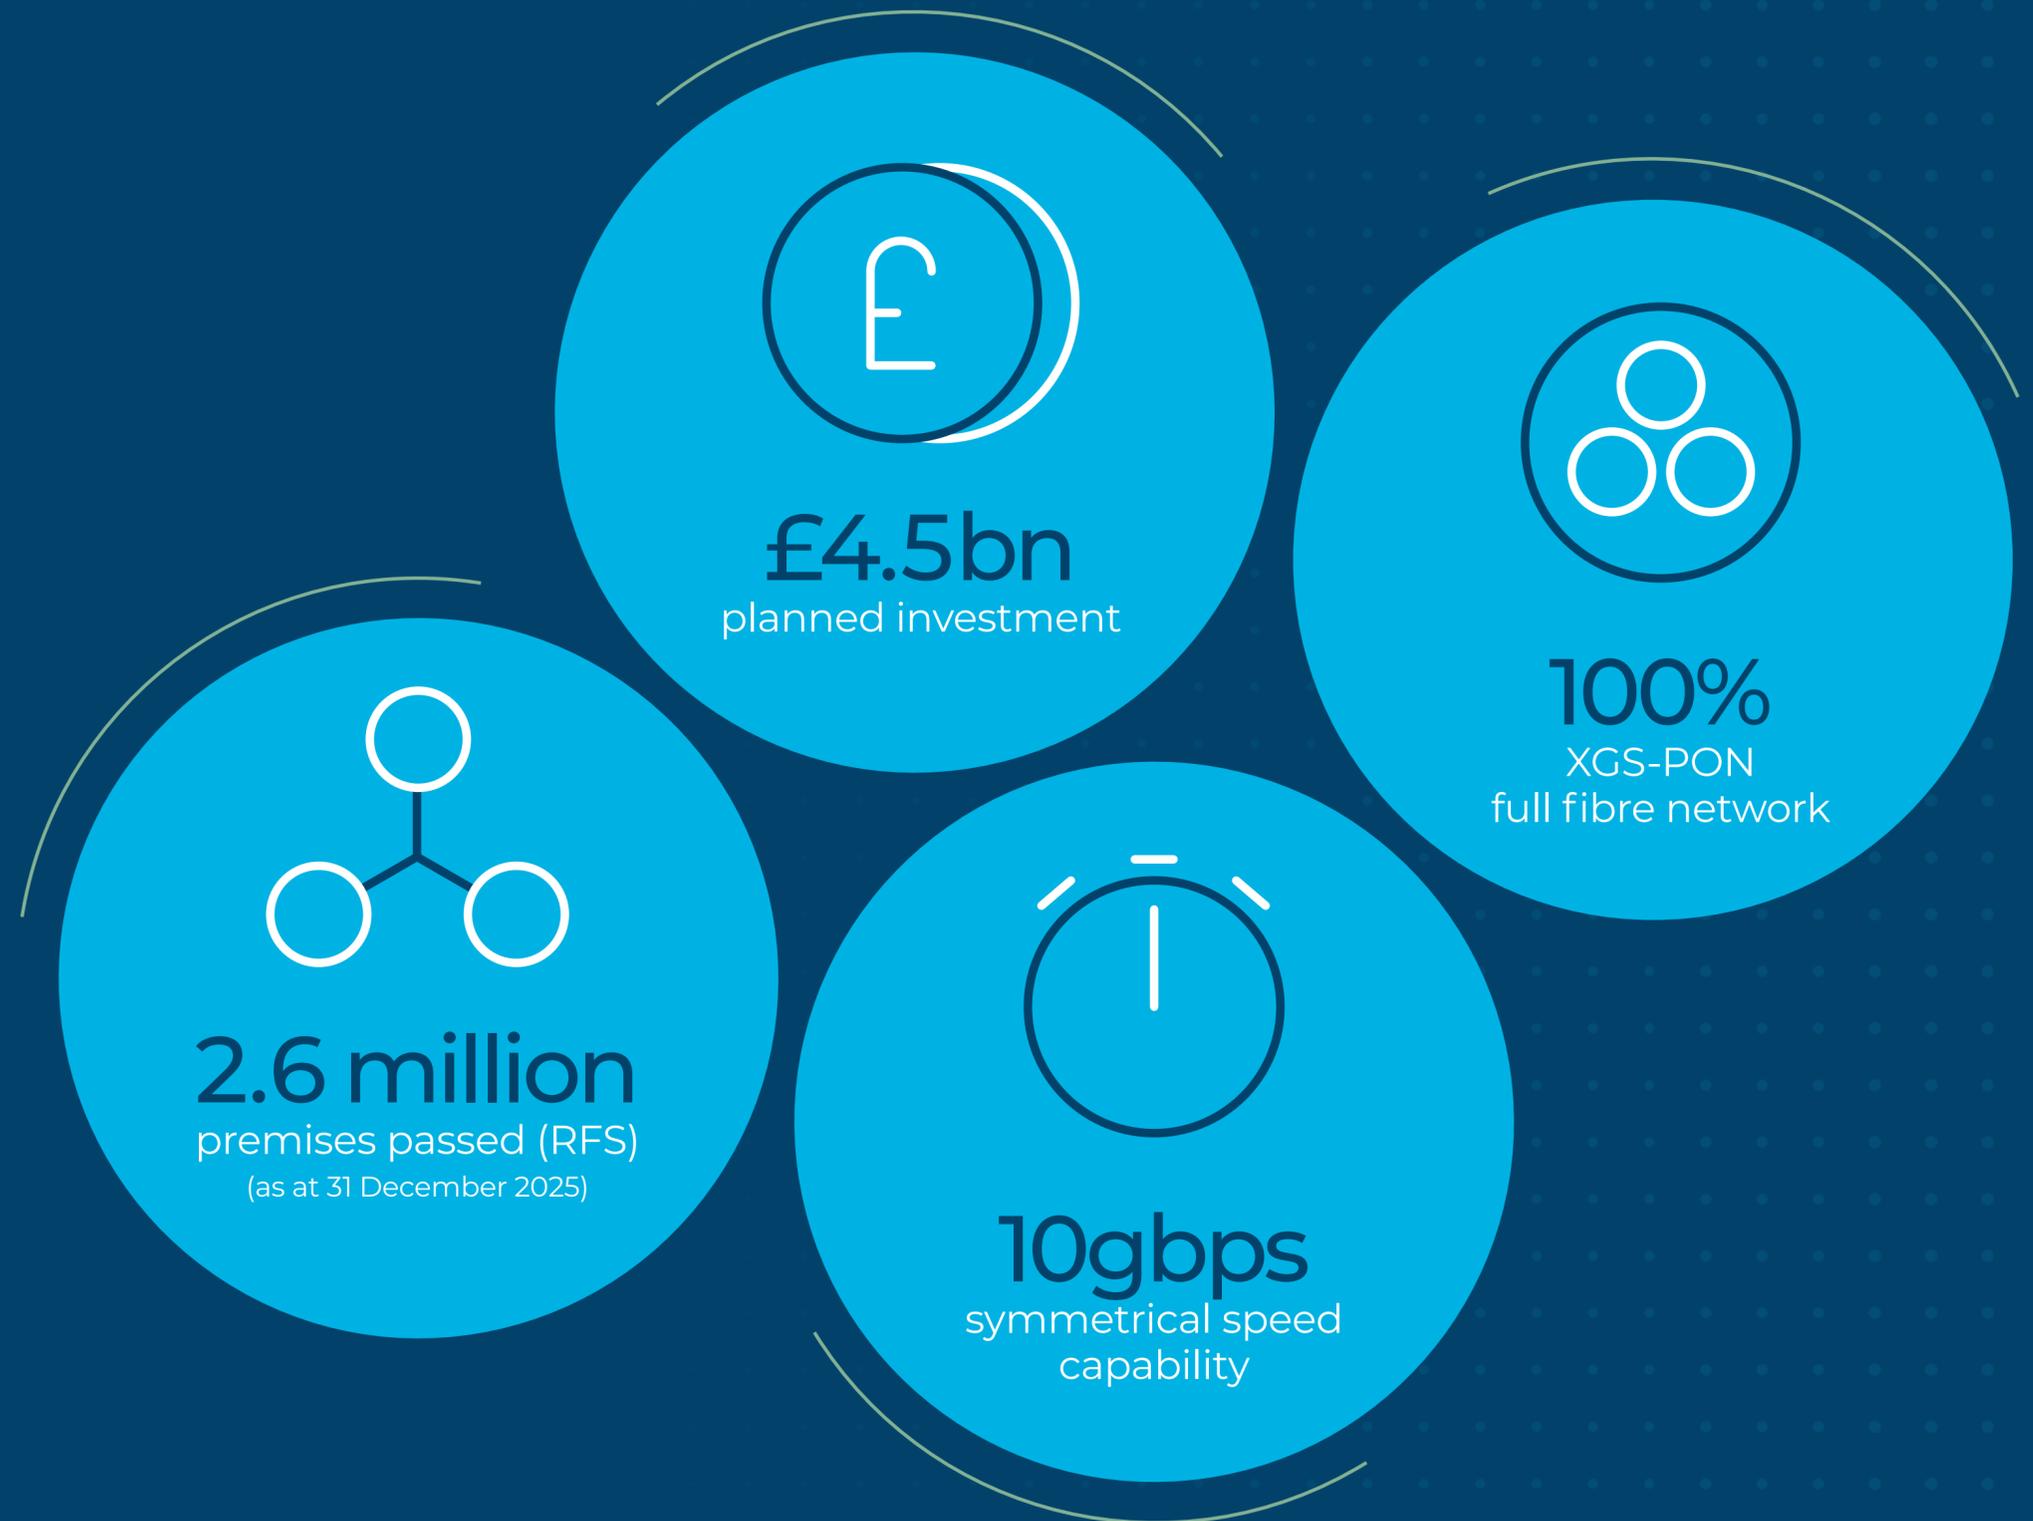

When combined with the growing fibre footprint of Virgin Media O2, our two networks will collectively reach 20 million premises, giving ISPs a highly attractive wholesale alternative, and enabling faster access to fibre for millions of homes and businesses across the UK.

I look forward to working with the Netomnia team over the coming months.

Rajiv Datta, CEO

nexfibre is a next generation fibre network operator. We are committed to establishing a wholesale full fibre platform that drives enduring competition, expands access, and unlocks the innovation and connectivity the UK deserves.

At-a-glance

Network coverage

This map, and the following pages, shows our current footprint, and locations where we are planning to build.

As at 31 December 2025.
